STRIKE SITUATION IS MORE GLOOMY

An Early Collapse of Movement Is Not Looked For.

THE COMMITTEE IS ENCOURAGED

The Revolutionists Seemerd To Be Bountifully Supplied with Money and the Government Anticipates a Hard Struggle.

St. Petersburg, Nov. 17.—2 p. m.—The outlook for an early collapse of the strike is more gloomy today. The situation is distinctly more menacing. The council of workmen's delegates or strike committee, are manifestly encouraged by the extension of the strike in St. Petersbug, various organizations including the bank clerks, telephone girls and some of the provisional leagues having voted to join in the movement. Moreover, it is certain that the workmen's council has received mysterious supplies of funds and consequently they present a bolder front. Practically all the pretexts based on economic demands have been abandoned, although the eight-hour day figures in the oratory at meetings in order to hold the workmen who have no thought except improvement in their material condition. The workmen's council returned a scornful reply to Count Witte's personal appeal to "his brother workmen", ridiculing the government's profession of solicitude for the workmen and renewing the demand for the immediate abolition of martial law in Poland, etc. Count Witte's attempt to negotiate directly with the strike leaders has come to naught, alhough he offered concessions in the case of the Cronstadt mutineers in case of their being condemned to death. But the leaders refused all compromise.

"All or nothing!" was the response.

The imperial ukase, on the land question, issued today, although it wipes out about $40,000,000 of the peasants' arrearages of debt, which, under ordinary circumstances might have been received with joy, is another disappointment.

The promises of additional lands are too vague to hold the agitated, starving peasants who, in the valleys of the Don and the Volga, are again marching, pillaging, burning ad murdering.

No confirmation has been obtained of yesterday's report of a false emperor leading the peasants of Penza.

The mill and factory owners at a meeting just held while offering to make concessions in the latter of hours of labor, generally to the ten hours, took a final decision that unless the men resumed work Monday they must close down indefinitely. Should the men be locked out in the face of the winter, it would only make the situation more desperate.

The news from the provinces shows that practically no movement has been started there in support of the general strike, but there is a deep suspicion that this may simply be the lull of preparation.

The Social Democrats and Revolutionists are keeping their plans dark. The organizations have ramifications throughout the country and at a signal they might again be able to bring the industries of the country to a stand still.

WOMEN FAINT AT BULL FIGHT.

Angry Beast Attacks Matadors and a Panic Ensues.

Chicago, Nov. 18.—A dispatch to the Tribune from El Paso, Tex., says:

The bull fight at Ciudad, Juarez, yesterday given for the American mining convention, there was a panic when Felix Robert, the French matador, who claims to be the only matador of that nationality, was tossed in the air and carried from the arena, bruised and bleeding. Later the same bull made a run and plunged its long, sharp horns through Matador Francisco Alonzio Piquiro, tossing him into the air first, then dragging him about the ring, blood streaming from the wounds in the man's body.

The spectators sickened at the sight and women fainted and screamed to be carried out. The arena was packed with Americans from every section of the United States, few of whom had ever seen a bull fight, and for a time the situation was serious. Many men rushed from the sickening sight in horror, while the women in many instances were carried out unconscious.

Order was finally restored, but most of the Americans left, deciding that they had already seen enough of the Mexican and Spanish national sport, although this was only the second bull up for slaughter out of the four marked for the matador's sword.

TOURIST EXCURSIONS STOPPED.

California Lines Will No Longer Run Them From East.

Chicago, Nov. 18.—The Tribune today says that the California lines have by an order issued yesterday put a stop to the personally conducted tourists excursions which have been flourishing in that field for years. Not only will a large number of railroad conductors, probably 125, whose salaries average $100 a month each, lose their positions, at least one tourist excursion bureau which makes a specialty of personally conducted tourists to California be driven out of the business.

During the day the connections of the Santa Fe, Southern Parific and San Pedro lines were notified that hereafter these roads will not accept tourist cars containing pernoally conducted parties and they will not even take the cars which started out as personally conducted parties, even if the personal conductor is not on the train during the haul over these lines. The reason given for taking this action is that travel to the Pacific coast has become so common that travelers generally are familiar with the way.

France's Answer a Veiled Threat.

New York, Nov. 18.—The following message from President Castro of Venezuela to the Herald is printed by that paper today: "The answer of France is a veiled threat, discarding the memorandum remitted by Mr. Russell's proposition every conciliatory method. Public opinion unanimously supports the attitude of the government in seeking reconciliation, but firmly sustaining the authority of tribunals, recognized by America, but spurned by the country of France. The Paris edition of the Herald is reproduced here with satisfaction as telling the truth and corresponding with the memorandum. (Signed) Castro, Caracas, Venezuela."

Officer's Resignation Accepted.

Chicago, Nov. 17.—A dispatche to the Record-Herald from Washington says that President Roosevelt yesterday accepted the resignation of Lieutenant Granville R. Forteseque, Tenth United States cavalry. Lieutenant Forteque has been named as one of the several corespondents in the suit for divorce brought by Major Elmore Taggart, U. S. A., against his wife at Wooster, O. Last winter he was on duty at the White House social functions.

Uprising in Cuba.

New York, Nov. 18.—A cable dispatch to the Herald from Havana says that news received here at a late hour says that an uprising has occurred at Manzanillo, and that troops, supposedly destined for Santiago, are really for the later place. Senas Andrade, secretary of the government, said that nothing absolute was known but that the government wasted to take all possible precautions to prevent a repetition of the Cha[illegible]

Albany, N. Y., Nov. 18.—William R. Hearst, candidate for mayor of New York city on the Municipal Ownership ticket, certified to the secretary of state today that his total campaign expenses were $65,843. This breaks he record for such expenses which was formerly held by Governor Higgins, who during the last state campaign spent $22,000.

Watched $15,000 Burn in Stove.

Chicago, Nov. 18—Mrs. Charlotte M. Weightman, who recently brought suit against her husband for separate maintenance, today told Judge Pretano during the hearing of her case that she believed that her husband had spent her money and therefore threw money and securities valued at $15,000 into the stove and watched them burn. She afterward left her husband. A decree giving the woman $35 a month was awarded.

Bonaparte Differs with Roosevelt.

Chicago, Nov. 18.—A dispatch to the Tribune from Washington says that differences of opinion appear to exist between the president and his secretary of the navy on the subject of naval extension. The president has been urging the necessity for a big navy, and pushed his views at times to a point where he could not get congress to follow him. Secretary Bonaparte is opposed to this. The secretary has decided to turn down the recommendation of the board of which Admiral Dewey is president, for the construction of three new battleships. This plan was adopted by the general board to support the president's known views.

2,000 BALES OF COTTON BURNED

Fleecy Staple to the Amount of $150,000 Goes Up in Smoke.

Columbus, Ga., Nov. 18.—A million-dollar cotton fire was narrowly avoided in Columbus and as it was $150,000 worth of the fleecy staple went up in smoke.

Over 2,000 bales on the grounds used jointly by the Central of Georgia railway company and the Atlantic Compress company were burned to ashes and 1,000 bales were badly damaged, while hundreds of bales were s badly scorched.

The cotton destroyed was being kept in an open space north of Thirteenth street, just south of the Central railway's round house, and was awaiting compression.

A spark from a Central of Georgia switch engine set fire to the grass and the flames spread to the cotton, a few feet away.

A stiff wind was blowing, and the fire swept over the 4 acres of cotton bales like the burning of a sedge field. The fire department arrived promptly and put seven streams of water on the cotton, but only about one-third of the cotton north of Thirteenth street was saved. South of Thirteenth street and on the compress platforms were many thousand bales, the total cotton on hand awaiting compress aggregating between 16,000 and 17,000 bales.

With Broken Neck Man Lived.

Philadelphia, Pa., Nov. 18.—With the death of George Handforth, 28 years old, at the Methodist hospital ended what is said to be the most remarkable case of survival with a broken neck known in the annals of medicine and surgery. For fifteen months the injured man lay on air and water mattresses, suffering no pain, unable to move any muscle except those in this forearms, always conscious, but gradually wasting away. From a strong, stalwart man, weighing 160 pounds, Handforth weighed at the time of his death only 134 pounds. Handforth was employed at the Atlantic Refining company's plant. On August 19, 1904, he fell from the top of a tank and struck the ground on his back, fracturing the fifth and sixth verebrae.

New York, Nov. 18.—At a special meeting of the board of trustees of the Mautual Life Insurance company in this city at which a preliminary report of the recently appointed special investigating committee was submitted, President Richard A. McCurdy caused stir announcing that at his own request his salary had been cut in half—from $150,000 to $75,000 a year. This action was taken at a meeting of the finance committee, and Mr. McCurdy made the first step in reducing the expenses of the company. Valdosta, Ga., Nov. 18.—Seven alleged pickpockets were arrested here this morning and are being held for investigation.

It is said to be a gang which has been following Ringling's circus all through Georgia and Florida.

Two prominent passengers from Atlanta saw the robberies and later pointed out the men to the police.

The petitioners aver that the total indebtedness of the concern is $6,528.28, and declare that it is insolvent. The movants further state that the Katie, one of the largest steamers of the line, has been tied up for some time at its wharf in Augusta, and that it is rapidly falling into a bad state of repair.

SONGS IN THE NIGHT.

(MARIE CONWAY).

Written for The Savannah (Ga.) Press.

I was tired and spent with toiling,
And weary with grief and care,
Till the simple burden of living
Seemed almost too great to bear;
And, so, in the midnight hour,
I looked at the sky above,
And my soul grew faint in the shadows,
And I doubted my Father's love.

For deep clouds shrouded the heavens,
Not one star shone in the sky;
And I doubted if God could hear me,
He seemed so far and high.
Had then, in the darkest hour,
A bird's song, sudden and sweet,
And weighty with tender promise,
Rang up from the city street.

A caged bird singing in darkness,
It fell on my heart like dew;
It wiped out the bitter doubtings,
And brought back the good and true.
It taught me a tender lesson,
Of faith that can grow so high
That it gives from a midnight prison
A song to the sullen sky.

And I said, oh, my heart look upward!
Let us learn of the dear bird's song
To hope when the sky is darkest,
To suffer, and serve, and be strong.
It is easy to hope in the sunshine,
It is easy to sing in the light,
But braver to trust in the darkness,
And nobler to sing in the night.

We will learn, oh, my heart, through sorrow,
We are nearer the heart of God,
When we walk through the valley of shadow
And lean on his staff and his rod.
We will wait and work in the darkness
And watch for the dawning light,
And, sure that His love surrounds us,
We can give Him a song in the night.

No Poison in Chamberlain's Cough Remedy.

From Napier (New Zealand) Herald: Two years ago the Pharmacy Board of New South Wales, Australia, had an analysis made of all the cough medicines that were sold in that market. Out of the entire list they found only one that they declared was entirely free from all poisons. This exception was Chamberlain's Cough Remedy, made by the Chamberlain Medicine Company, Des Moines, Iowa, U. S. A. The absence of all narcotics makes this remedy the safest and best that can be had; and it is with a feeling of security that any mother can give it to her little ones. Chamberlain's Cough Remedy is especially recommended by its makers for coughs, colds, croup and whooping cough. This remedy is for sale by all druggists.

MANY CASES IN THE CIRCUIT COURT

Grand Jury Releases Several Men Held For Murder.

CONSIDERABLE WORK HANDLED

Several Unimportant Cases Carried Over—The Common Law Docket is Nearly Finished—One Appeal Taken.

From Saturday's Daily Sun.

The November term of the circuit court for Alachua county was continued yesterday, Judge J. T. Wills presiding

The ejectment case of Palmer vs. Parker, in which W. H. Palmer brought an action against Fannie Parker, was of some length. The evidence consisted of a record of the proceedings and judgment of a justice of the peace. The record was objected to by the attorney for the defendant, and the court sustained the objection, which resulted in a verdict by the jury, on direction of the court, of not guilty. The case will be taken to the supreme court.

The following cases in assumpsit were disposed of: Waterman & Co. vs. E. J. Baird, judgment for $218.64; Edward Anderson vs. E. J. Baird, judgment for $1,200; L. N. Pearce, judgment for $220 95.

The Albion Mining and Manufacturing Co. vs. Riley & Millard, replevin, resulted in a judgment for the plaintiff for 25 tons of phosphate rock. A similar case by these same parties also resulted in a like judgment for the plaintiff.

In the case of J. R. Eddins vs. Sam Cook, in assumpsit, a judgment was obtained for $750.

The following who were before the grand jury charged with murder were discharged, no true bill being found: March Debose, Ed Kite, Will Harris and Dan Johnson.

Several unimportant cases were continued for the term.

The common law docket is nearly finished up and the term will not be so long as some anticipated at the opening of the session.

ANNIVERSARY ANIMADVERSION.

Enjoyed at the Cottage Home of Albert Weber, North Gainesville.

Thursday evening, November 16th, was a very memorable one for Albert Weber, the piano manufacturer, who has resided in North Gainesville for a year, that evening being his first to celebrate. There was a large number present at his pleasant cottage and nothing was spared to make the occasion long to be remembered.

Mr. Weber has a cultured taste for decorations and he did this part with a lavish hand. It was a perfect bower of beauty and admired by the recherche gathering of beauty and beaux of this city.

Music and mirth made the evening glide swiftly by until the time for the dainty refreshments, when the large crowd partook of a toothsome repast that was in keeping with the other arrangements so carefully carried out in every detail. It was an event long to be remembered by all.

No Case of Pneumonia on Record.

We do not know of a single instance where a cough or cold resulted in pneumonia or consumption when Foley's Honey and Tar had been taken. It cures coughs and colds perfectly, so do not take chances with some unknown preparation which may contain opiates, which cause constipation, a condition that retards recovery from a cold. Ask for Foley's Honey and Tar and refuse any substitute offered. J. W. McCollum & Co.

The Cause of Many Sudden Deaths.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, causing catarrh of the bladder, or the kidneys themselves break down and waste away cell by cell.

Bladder troubles almost always result from a derangement of the kidneys and a cure is obtained quickest by a proper treatment of the kidneys. If you are feeling badly you can make no mistake by taking Dr. Kilmer's **Swamp-Root,** the great kidney, liver and bladder remedy.

It corrects inability to hold urine and scalding pain in passing it, and overcomes that unpleasant necessity of being compelled to go often through the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases.

Swamp-Root is pleasant to take and is sold by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle of this wonderful new discovery and a book that tells all about it, both sent free by mail. Address, Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

RHEUMATISM THE TERROR OF WINTER

Rheumatism is usually worse in Winter because of the cold and dampness and other changed conditions of the climate. The occasional twinges of the disease that are felt during the warmer weather are changed to piercing pains, the muscles become inflamed and swollen, the nerves get sore and excited, the bones ache, and Rheumatism, the terror of winter, takes possession of the system. Then the sufferer turns to the liniment bottle, the woolen clothes, the favorite plaster or some home remedy, in an effort to get relief. But Rheumatism is not a trouble that can be rubbed away or drawn out with a plaster; these things relieve the pain and reduce the inflammation, but do not reach the real cause of the trouble, and at the next exposure another attack comes on. Rheumatism is caused by a sour, acid condition of the blood. The refuse matter and bodily impurities which should be carried off through the channels of nature have been left in the system because of indigestion, weak Kidneys, torpid Liver and a general sluggish condition of the system. These impurities sour and form uric acid, which is absorbed by the blood and distributed to the different muscles, joints, nerves and bones, causing the painful symptoms of Rheumatism. S. S. S. goes to the root of the trouble and cures Rheumatism by cleansing the blood. It neutralizes the acids and filters them out of the circulation and sends a stream of pure, rich blood to all parts of the body. Then the pains cease, the inflammation subsides, the nerves are quieted, every symptom of the disease passes away, and the cure is permanent. S. S. S. is purely vegetable and does not injure the system as do those medicines containing Potash and other minerals. Book on Rheumatism and medical advice without charge.

INDUSTRIAL EDITION.

In answer to the many inquiries of friends regarding the Industrial Edition we will state that all orders for the same sent in or left at The Sun office will be as promptly filled as possible. Owing to the great demand for copies of the edition some may be a trifle late in reaching people from a distance, but they will sure be there.

Jack Frost is more welcome than Yellow Jack, even in mid-summer.

There will be large crowds at the State Fair next week. It is a hummer and excels all others.

The sub-committee of the Panama Canal Commission favors a lock canal. There is every prospect of it being land-locked for some time to come.

It is gratifying to know that after all the talk and supposed progress on the Panama canal, "actual" work will be commenced in a few months at least.

New Orleans business men are talking of organizing a five million dollar life insurance company. We don't know much about life insurance, but would like to be president.

If a cotton factory in Georgia is made to pay 15 per cent on the investment, why cannot the same profit be made on one in Florida? We have the raw material at hand and there are several men in our county and city who have faith in a cotton factory.

The first day of the State Fair at Tampa was a good opener, over 7,000 tickets being sold. When we stop to consider that the people are not so eager for the first day, the crowd was a good one. The Fair is the best ever held in the South and there will be a larger crowd next week.

Ocala is having numerous object lessons of late on the temperance question. The death of a man named Brown from the effects of the grog sold there, and the shooting of another man a few days ago, which was brought about by liquor, are very timely for those business men who signed the petition, fearing that their business would be ruined if they got local option.

NORTH AND SOUTH.

There is much talk in regard to President Roosevelt's visit to the South and the impression made, both on the President and on the South, which could be easily understood by any, all, if they would enjoy the same experience as President Roosevelt and make a similar tour. There is little or no difference between the people of both sections. Both are Americans and proud of it. It is doubtful in the mind of the writer if you could find a man in the North but what is proud of the rapid progress being made in the South and if they could only come and see for themselves would be prouder still.

When President Roosevelt came he found men of his own stamp of character; he saw the South as a part of his own native land and its people as his people, hence it is not surprising that he conquered a place in their hearts which nothing can ever obliterate.

Himself an ardent American and worshiping at the shrine of its loftiest ideals he found here that he was standing on common ground with the Southern people who have ever bowed at the same altars and stood for the same patriotic principles.

The President came as an honest man, says The Chattanooga Tradesman, with honest words of admiration for what the South loved most and at once the hearts of the people were opened to him as none could have prophesied would ever occur. His words of greeting to Mrs. Jackson, "the widow of the great Stonewall Jackson," as he involuntarily exclaimed, and as being worth his whole trip to have met, was the manliest tribute that he could have paid to the holiest memories of the South and it made him thenceforth as one of our own people.

The trip was indeed a great one. Great for the President, for he knows the South as he never knew it before, and great for the South, as it can now challenge the world through a channel that will not be questioned as to its loyal devotion to what this nation stands for—genuine Americanism.

The President knows now and the world likewise knows that the enemies of this republic are not to be found in the South, but that here exists the strongest bulwarks of patriotism that remain on this continent.

President Roosevelt is a wonderful man and the South is perhaps prouder of him today than is any other portion of this country. May that friendship and confidence never be less on either side. The whole country needs such a leader at this time and that leader needs the South to sustain him in his efforts to carry forward this government to its manifest destiny.

PEANUTS AS FORAGE.

The general and popular conception of the value of the peanut is more in keeping with its association as a side light to the circus than as a valuable farm product and forage crop, says The Journal of Agriculture. However, the peanut is a valuable leguminous plant for the South, where it has long been grown in certain sections as a staple market crop and where its value as a forage crop for farm stock is being more and more appreciated and its culture for this purpose is becoming more general.

The area devoted to peanut culture, according to the 12th census, increased from 208,946 acres in 1889 to 516,658 acres in 1899, or an increase of over 153 per cent while the total production increased over 233 per cent during the same period. The Arkansas Experiment Station has grown peanuts for a series of years and in a recent bulletin has given a summary of its observations on the culture and uses of the plant for stock food together with recommendations for growing the crop.

Particular attention was given to the Spanish peanut, a small but prolific variety, which has been observed to make a good growth and given profitable returns wherever the cowpea can be grown with success. The numerous estimates made by the Arkansas station as regards the yield of hay from a crop of peanuts varies from one to nearly three tons per acre. This hay is usually worth at least $10 a ton and may be considered a by-product when the nuts are harvested for market.

In connection with the value of peanuts as a forage crop, it may be noted that in Virginia there is a man who has been accumulating a tidy fortune through the quality of hams cured and packed by him. The hams have a rich and sweet flavor which makes them in great demand at increased prices. The packer each year goes through neighboring States buying up "razor-backs" which he has shipped to his farm. It is there that they are given a food which imparts the flavor and sweetness—nothing more than peanuts.

THE POSTAL TELEGRAPH.

For some months the Postal Telegraph Cable Company has been trying to run a line of wires through Florida. The Western Union has had practically a monopoly of the business for many years. It has contracts with the railroads over whose lines it runs its wires and in return for telegraphic service the railroads distribute material for the keeping up of the wires of the company.

When the Postal attempted to enter the Florida field, says a dispatch from Tallahassee, the railroads, in accordance with their contracts with the Western Union, refused to give it the same advantages in service that they gave the Western Union. The first difficulty that the Postal met was in getting a right-of-way along the tracks of the railroads for the placing of poles. This difficulty was overcome by an act of the last Legislature, which gives the right to condemn rights-of-way and this was done. As soon as the company was to begin wiring its lines, shipments of poles and wires were offered for transportation to the Atlantic Coast Line. The railroad company replied that while it would haul the poles, wires and other materials from one station to another when they were offered for transportation, it declined to furnish a train to distribute them along the tracks as it had done for the Western Union.

On complaint of the Postal Company against the Coast Line the matter came up recently for a hearing before the Railroad Commissioners of Florida. The Postal charged the railroad with discrimination in performing a service for the Western Union that it would not perform for the Postal and petitioned the commissioners to order the discrimination of material to be stopped and to prescribe a reasonable rate for the performance of the service by the railroad company.

The commissioners have rendered a decision in accordance with the request of the Postal Company.

SUNSTROKES.

Fools and fads both begin with the same letter and both are present in large numbers.

If a little girl with red hair is dangerous, what must a big girl be with the same colored hirsute appendage?

The reason why some of our best business men advertise is because it takes two to make a bargain. The advertisement brings the second party.

There are many men who can tell all about running somebody else's business, who never had enough business about them to have one of their own to manage.

It is said that one of the men engaged with pick and shovel in tearing up Union street raised his pick to strike a blow just as the whistle blew for 12 o'clock, and being true to the principles of all city employes, quit further effort and left the pick suspended in the air until time to begin work after dinner.

EVERY truck farmer knows (or ought to know) that POTASH is indispensable for producing good-paying truck crops. A liberal quantity of POTASH, along with ample amounts of phosphoric acid and nitrogen, is vital to successful truck growing.

"Truck Farming," an interesting book dealing with practical truck raising and valuable to every truck farmer, will be sent to farmers on request, free of any cost or obligation.

LOOKS DIFFERENT.

Brothers Appleyard and Caldwell are now attacking the Buckman bill. If the excellent missionary work these two able writers are performing today had been given right in their localities previous to the passage of the bill, there would perhaps be no necessity for the agitation of the question now. Certainly two gentlemen who voted for the Buckman bill ought to have been convinced by the character of the arguments which are today being offered. But to some people the bill does not look as good today as it did when it was passed by the Florida Legislature.—Live Oak Daily Democrat.

It is plain to be seen that all fair-minded people in Florida are onto the motives of the Lake City and Jasper papers, and know who is the man behind the guns. The Gainesville people, however, will abide by the decision of the courts and the people in the State. It was a fair proposition and the State Board of Educational Control will do its duty.

To show that the people endorse the conduct of the board, we will state that 14 of the leading papers of the State have published the communication of Chairman Bryan to The Metropolis of Jacksonville.

NOT SO BAD.

The Ocala papers are trying to make it appear that local option in Alachua county is creating great havoc, which is not the truth. It cites the killing of a negro at Orange Heights as one instance, and the facts are that there was no liquor in the case. The negro threatened a white man, and afterward he cursed the little child of the man, who did the shooting in self-defense.

The other was a case where a number of negroes got whiskey from Ocala, or some other license town, and had a drunken row. Perhaps if there had been no liquor to be had in Ocala there would not have been any trouble.

In certain localities there may be some trouble, where liquor is brought into the county from the places that have license; but there has not been a drunken man arrested in this city for six months who got his liquor of a blind tiger. Our officers are making it too lively for them.

BERMUDA ONION SETS.

A Tampa news item in The New York Fruit and Produce says: As the time for planting Bermuda onions is approaching the question of which is preferable, sets or seed, is being discussed. The acreage of onions will undoubtedly be increased as those who experimented last year are pleased with results concerning Bermuda sets. Crenshaw Bros. say:

"We handled through our seed department last season 2,000 bushels of Bermuda onion sets, planting on our own account for the market in the neighborhood of 400 bushels. These were scattered in different sections of this State, and while we know from experience that Bermuda onions will mature quicker from sets than from seed, we do not advise that the crop will be superior. We found that the seed, while maturing later, matured a much more uniform crop. It is possible that the sets being grown in the northern sections of this country, then planted in this State, causes the difference in maturity. We expect as usual to handle a considerable quantity of Bermuda sets and we are also among the largest importers of Bermuda."

A FEW QUESTIONS.

What does The Time-Union mean by charging the State Board of Education with a breach of trust in the University matter? Had Lake City a divine right to the school? Was it not an open field and a fair fight, and did not Gainesville win in a fair contest? Are the personal interests of Lake City paramount to the education of our youth? If the courts kill the law, where is Lake City benefited? The Legislature in extraordinary or regular session would doubtless re-enact the law and Gainesville would win more easily than before. Is Lake City toting fair under defeat? We don't expect The Times-Union to answer all these questions at once and judging the future by the past it will ignore all of them. That paper believes in the majority rule, when it is with the majority.—Levy Times-Democrat.

ALACHUA'S STATE FAIR DISPLAY

It is a Credit to the County and to Major J. W. Tench.

PEOPLE ARE PROUD OF IT

Everything Shown Is Arranged With Much Care and Taste—The School Exhibit Is Admired by All—The System Praised.

A number of Gainesville people returned from the State Fair at Tampa on Saturday night, and all are loud in their praises of the entire exhibition. It is said to far surpass any fair ever held in Florida and the various counties are represented in the best possible manner, the fruit and vegetable displays being grand.

The display of Alachua county is worthy of much praise, and to Major Tench is due many praises for his untiring efforts in bringing to the front with the meagre means at hand one of the finest exhibits at the Fair. Dr. Kelley says it is a credit to any county, and requests The Sun to inform those who promised to send fresh stuff during the Fair to keep their agreement.

The school exhibit of Alachua county, which was arranged by County Superintendent Kelley, is meeting with the approval of the large crowds who view it. There are many things about it that attract all who are interested in education, and to Dr. Kelley and wife is due the praise. The Doctor returned home Saturday, but Mrs. Kelley is in charge of the booth and will remain until the close of the Fair.

The money expended by Alachua county will come back three-fold, as her displays will still keep her in the front rank of the counties of the State.

THE COTTON SEED INDUSTRY.

The United Kingdom Consumes Much of This Product.

Washington, Nov. 18.—The government crop reported in its latest issue prints a report from London showing that for cotton seed and the products derived therefrom is a more extensive market in the United Kingdom than exists in any other country of Europe. The cotton seed industry of the United Kingdom, dependent wholly for its supply of the raw material upon imported seed, produces an exportable surplus of the chief product, oil, but is still heavily dependent upon foreign countries for its supply of the by-product, the popular and valuable cattle food, oil-cake.

The report says:

"The commercial distribution of the products is confined almost entirely to the United Kingdom. For the kingdom as a whole there has been a decline in recent years in the importation of cotton seed, but the decline in recent years in the importation of cotton seed, but the decline has been more than made good to the crushing industry by increased importations of flaxseed and rape seed, the imports of the former having doubled and those of the latter having increased by one-third within two years."

Triple Murderer is Captured.

Middletown, N. Y., Nov. 18.—Charles Henry Rogers, wanted for the triple murder of Willis and Fred Olney and Miss Ingrisk near this city on Oct. 6, is said, has been seen and his identity established in Kimble, Pike county, Pa. Detectives are now on his trail.

JORDAN'S COTTON CAMPAIGN.

Old-time bulls are getting together, and at a conference held in New Orleans a day or two ago, at which there were present such men as Frank B. Hayne, W. P. Brown, Harvie Jordan, President of the Southern Cotton Association, and others equally as active in sustaining the price of American grown cotton, definite plans were adopted for the launching of the most ambitious bull campaign that the cotton world has yet had to consider. This is nothing more nor less than the tieing up under contract of some 3,000,000 bales of cotton which is to be held until the mills are ready to pay 15 cents per pound, basis middling, for it.

In defense of the practicability of this plan, it was pointed out that the current crop can hardly exceed 10,000,000 bales; that the world's spinning and weaving industry is now breaking all previous records in the matter of new business and general prosperity; that most of the mills are sold up for a year to come on a basis of 14 cents cotton, and have not as yet purchased the actual cotton with which to fulfil their contracts; that the farmer and not the speculator is entitled to profit by the shortness of the crop; that a very large portion of the crop has already been sold below its value, and that the remainder must bring 15 cents if the season's average price is to reach 12½ cents, which is low when contrasted with the world's requirements and the 1905 yield.

President Jordan announces his intention of immediately sending canvassers through the cotton States. These canvassers will call on the farmers and planters as rapidly as possible and secure from them written pledges to hold as many bales as they can—the number of bales to be stated—until the absence of cotton offered for sale, meeting an increasing demand for supplies, shall have brought the bid price up to 15 cents. Meanwhile the efforts of speculative "shorts" to cover at once the pressure on them is felt, will, it is believed, exert a signal and favorable effect on the market both in America and Europe.

STIRRING THINGS UP.

There are still malcontent politicians in Florida, but they refuse to keep still. The newest move is to attack the Buckman bill or law passed by the last Legislature, by which the educational affairs of the State were remodeled and a permanent university established.

According to these malcontents the Buckman law is all wrong; it is terribly unconstitutional, horribly so; it disrupts the selfish scheme of a whole crowd and lets the other fellows in on the ground floor to gobble up several soft snaps.

The people of the State are left to guess what is the motive for this attack upon the law. Of course the failure to cross all the t's in the original bill and to dot all the i's will be proved to be a defect that must disrupt the entire educational system of Florida and possible mole hill technicalities must be made to appear as mountains that these self-appointed guardians of the public weal may be glorified in their role of self-abnegated patriots.

Well, we are metaphorically holding our breath, waiting for the smash-up to come; then when the flow of good sets in and the university goes careering through limitless space into the great unknown, we will breathe easier in view of the great intake of satisfaction among the malcontents.—Cocoa and Rockledge News.

Florida will undoubtedly have the heaviest tourist business in its history the present winter. Every train and every Clyde ship is entering the State crowded with passengers thus early and the volume increases with the days. Thus far this season the tourist business is fully 20 per cent heavier than for the same period last year.

A man who had heard the conundrum "Why is a married man like a mule?" and the answer "Because his better-half is stubbornness," thought he would get the joke on his wife. He propounded the conundrum, but was surprised to hear his wife's reply: "I don't know unless it is because you were born that way."

Live Oak is bound to be in it, and will have a crack football team.

Tallahassee is noted for her beautiful flowers, but what a nice lot of "posies" they will miss this winter, owing to the Legislature not being in session.

The people of Starke have begun a Sunday closing crusade and it is announced that places of business will have to have their doors shut after 12 o'clock noon. A good plan.

N. W. Hackett of Starke was arrested a few days ago for writing a forged endorsement on a note. Mr. Hackett claims it was done with no intent to do wrong, being in a business transaction.

Nine steamboats and forty lighters have been purchased for the work of the Key West extension of the Florida East Coast railway and this fleet is now on its way to the scene of activity. The company already has twenty-six additional lighthers on the work.

The tax books for 1905 show an increase of $52,509 in the total assessed valuation of real and personal property in Levy county. The total assessed valuation for 1904 was $1,718,037. For the year 1905 it is $1,770,546. Not so bad, is it?—Levy Times-Democrat.

Some thief entered the home of W. S. Harris, on Van Buren street, some time Wednesday afternoon and secured about fifteen dollars worth of goods. Mrs. Harris had gone up town, leaving the cook to look after the house. The cook claims that she went to sleep on the floor and that she knew nothing of the robbery.—Live Oak Democrat.

At a meeting of the life insurance policy holders in Jacksonville to consider matters in regard to the recent investigations in New York, it was resolved that a committee of five be appointed "to consider the advisability of appointing one or more proxies to the annual meetings of the representative insurance companies and to devise a plan for a permanent organization of policy-holders of the State of Florida and to provide for a fair distribution of the expense of such action as may be agreed upon; said committee to report to a meeting of policy holders called by the chairman of this meeting."

Judge Palmer hit the nail on the head the other day when he advised the colored people to shun the preacher among them who stooped to steal, and when he said that there were many of that race wearing the cloak of religion only to prey on the unwary, he stated a fact. There are many colored preachers in this State who are among the biggest scoundrels unhung, and who have donned the garb of a preacher only to keep from work and to assist them in their rascality. There are a great many good and honest colored people in and out of the church, and in no county are they more industrious and better behaved than in Suwannee. But here as well as in other sections they are made the victims of transient negro preachers who rob them of their earnings under the guise of religion. Judge Palmer intimated that the Legislature ought to prevent to some extent organizations and societies among the colored people, owing to the fact that they are too often the means of trouble and too seldom of any benefit to the race and the community.—Live Oak Daily Democrat.

The fountain in Hemming Park at Jacksonville collapsed on Wednesday, just as the park attendant had commenced to clean it. It has stood for many years, but the heat from the big fire in 1901 damaged it considerable.

In the circuit court at Live Oak on Tuesday two colored preachers had a most amusing seance. Both had been fired from the church where each tried to expound the truth, and each accused the other of many crimes. Judge Palmer got disgusted and referred the matter to the State's Attorney.

Quite a slick trick was tried there a few days ago, but did not succeed well in Starke. A plausible young man visited the different homes, offering to enlarge any one of their photos free of charge. After securing what orders he could, another one followed securing frames for their pictures at a fancy price, and assured them that no picture would be enlarged unless a frame was bought.

J. Y. McKinney, superintendent of the Protective Fruit Association at Candler, has constructed a machine to spray groves. It consists of a gasoline engine and force pump, mounted on a wagon, and will spray four trees at a time and saves about one-half of the spray material that has heretofore taken to do the same amount of work. It does the work in a thorough manner and is a terror to the many insects that infest citrus trees.

Guilty of murder in the first degree was the verdict of the jury in the case of Sim Jackson, the negro who brutally murdered his wife at Evaville some years ago. The negro was tried at St. Augustine, Wednesday, and the evidence was so convincing that there was not the slightest hope of even mitigating the crime. No recommendation for mercy accompanied the verdict, and the death penalty will no doubt be imposed.

Man's Unreasonableness

Is often as great as woman's. But Thos. S. Austin, manager of The Republican of Leavensworth, Ind., was not unreasonable, when he refused to allow the doctors to operate on his wife for female trouble. After taking Electric Bitters she was perfectly cured, and can now perform all her household duties." Guaranteed by all druggists. Price 50c.

ORIGINAL TALLY SHEETS EXAMINED

Hearst's Lawyers Protested a Number of Them.

CONTEST FOR THE MAYORALTY

The Board of Canvassers Allow No One But Themselves to Handle Sheets. One District Shows a Gain of Seven Votes for Hearst.

New York, Nov. 17.—The original tally sheets in New York's recent mayoralty election were opened today by the board of county canvassers.

W. R. Hearst's lawyers protested eight of the first thirteen sheets taken from the envelopes, because they were found to differ from th returns on which the count electing Mr. McClellan mayor was based.

In one election district Mr. Hearst was found to have seven more votes than were counted for him.

In the thirteenth election district of the first assembly district the tally sheets showed that twenty-nine votes missing from the published count. It was not stated which candidate these uncounted ballots had been cast.

The board of canvassers allowed no one but themselves to handle the tally sheets. Counsel for both Mr. Hearst and Mayor McClellan were allowed to read all the sheets without touching them. Comparisons were confined to the votes cast for mayor, comptriller and president of the board of aldermen.

ECONOMIZING IN PRINTING.

Government Office Not Turning Out as Much Work.

Washington, Nov. 17.—Acting Public Printer Ricketts, in an interview published today says:

Judging from the volume of work now being turned out at the government printing office, economy has struck the government departments hard. We are now printing about as much stuff as we did five or six years ago. The amount has fallen off greatly within the last three months and during my connection with the office has never been at so low a point as now.

Mr. Ricketts attributed the falling off in requests to printing to the influence of the president and he determination of the heads of the departments to cut down the printing bills which had grown to enormous proportions.

Mr. Ricketts thought the investigation of the Keep commission and that more recently the Landis committee, who had much to do with the now existing conditions.

It has been necessary in some instances to lay off employes of the office who were working temporarily. This, with sick leaves, has reduced the force, and there are perhaps less men and women at work in the printing office this month than at any other time for several years. Mr. Ricketts said it did not look as though it would be necessory to employ many extra printers this winter.

WOMAN AWARDED BIG ALIMONY

Important Decision is Rendered by an Ohio Judge—Lawyers Get $6,000.

Cincinnati, Nov. 17.—Deciding that a separation was warranted under all the circumstances, alimony to the amount of $250 a month and attorney's fees of $6,000, were ordered by Judge James B. Swing, in this city, today in the suit of Mrs. Madden for alimony pending the decision of the Kentucky courts on the suit for divorce between John E. Madden and herself. The alimony is to be secured to Mrs. Madden permanently, but the Ohio court holds that the children are within the jurisdiction of the Kentucky court and that the Ohio court cannot decide as to their disposition. It is further decided that Mrs. Maden's bona fide residence is in Cincinnati, and that she could, therefore, maintain a suit for divorce in the Ohio courts which have jurisdiction in her case.

Judge Swing believed a reconciliation was seemingly impossible, and therefore a separation was warranted, and the wife's support imperative.

C. M. Bell of Waldo has decided to establish a bakery and confectionery store in this city and will probably arrive in the next day or two for completing arrangements for the same. The business will be conducted in the Hill Block, corner East Liberty and University streets, while the baking will be done in a building recently erected for the purpose on University street. A large and modern oven will be installed having a capacity of 500 loaves. Mr. Bell is a young man full of ambition and will doubtless build up a nice trade here. He has conducted a similar business at Waldo for a number of years and will continue the store at that place.

Minstrels at Opera House.

From Saturday's Daily Sun.

The Kalbfield minstrels drew a very good-sized audience at the opera house last evening, and gave good satisfaction. The jokes of the end men were many of them very good and told in a very funny vein. The vocalists with the company met with a hearty welcome, the voices being pleasing.

J. Connor, the violinist, was called back twice, his playing being very fine. Williams, the juggler, beat anything ever seen here in juggling a regulation Springfield rifle, batons, etc. Spellman, the burnt cork comedian, was a second Geo. Wilson, and Clark and McCollough, comic acrobats, were first-class.

The entire performance as a whole was very satisfactory and the people showed their appreciation by hearty applause.
